

# Coin Quick Counter

## for Counting - Sorting - Dispensing

The CSD-8 is a new (portable) device, combining an excellent design and an extreme compactness, for handling the acceptance, counting and the dispensing of coins at a manned workstation.

Thanks to its high speed in counting and the innovative performance, the CSD-8 proves to be a versatile device suitable for various applications where coin dispensing is a strong requirement.

The CSD-8 can be considered, a digital motorized mini bank for coins, suitable for banks, bus companies, shops, the post offices and others.

The internal verifier, allows the recognition of coins. Counted coins are sorted and stored in eight coin tubes, one for each supported denomination.

The unit is programmed to provide, at any moment, the accounting status for both the whole unit and each individual hopper.
