<b>Subject</b>	Compliance Patches
<b>Contact</b>	Your Client Service or Relationship Manager

FIS announces that patches will be provided to meet upcoming regulatory changes.

### ***Regulatory Reports***

The first patch provides updates to accommodate changes to the SAR\CTR paper filing process. There are no required changes for organizations using the SAR\CTR e-filing process.

### ***Wire File Formats***

This patch accommodates the **SWIFT**, **Fedline**, and **Fundtech** format changes coming in November. With these wire file format changes, OFAC scanning is unaffected. Only BSA transaction imports are affected by the formatting changes.
