Authentication & Signing • EMV • Key Management • PKI & ePassport

Now there are more
reasons to feel secure

Cryptomathic is one of the world's leading providers of **security solutions** to businesses across a wide range of industry sectors including **finance, smart card, digital rights management and government**.

We assist our customers by providing systems for **e-banking, two-factor authentication, public key infrastructure (PKI) initiatives, EMV card issuing, ePassport and advanced key management**, through best-of-breed security software services.

Founded in 1986 by renowned cryptographers, Cryptomathic was **one of the first companies in the world** to commercialize cryptographic algorithms.

Members of the Cryptomathic cryptography team have invented and contributed to **next generation cryptography solutions**, including the **Advanced Encryption Standard (AES)** which is endorsed by the National Institute of Standards and Technology (NIST) and Elliptic Curve Cryptography (ECC).
