CubelQ Announces that has been Awarded three EMV Card Personalization Projects in South East Europe

[EN] Athens, GR, **September 4th, 2009** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, today announces that has been awarded three EMV Card Personalization Projects in South East Europe.

During the first quarter of 2009, CubelQ has been awarded three (3) EMV Card Personalization Projects in South East Europe. The first is a central EMV card personalization solution in Rumania. The second is also a central EMV card personalization solution in Bulgaria. Both projects were delivered for UAT in less than a month including installation, integration, configuration and training of the customers' employees. The third project is the provision of **EMV card instant issuance solution** to approximately 180 branches of a bank in Greece.

The implementation of the central EMV card personalization solutions included EMV compliant hardware upgrade and integration of **CIM®** (MF GROUP®) card personalization machines and integration to third party card personalization machines manufactured by **Matica® Systems**.

CubelQ's **CIIA/EMV^{®2}**, the newest and most comprehensive EMV card instant issuance solution in the market today. Is a cost-effective and complete EMV personalization solution and is the only **"vendor neutral"** EMV personalization solution in the world which is not associated with any card personalization equipment or HSM vendor or card manufacturer.
