CubelQ Announces the Availability of a new Cheque Scanner

[EN] Athens, GR, **September 22nd, 2009** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, today announces the availability of **LS150**, a new cheque scanner.

LS150

The new cheque scanner, manufacturer by **CTS Electronics**, is setting a new standard in desktop scanners. With its superior 77 and 150 dpm speed, in a very compact and functional design, simply offers **the fastest processing in the smallest footprint**.

Technology: LS150 leverages all the latest technologies to provide the best image quality and the highest reliability in MICR & OCRB reading, a flexible multi-line endorsement using a standard HP® cartridge, and a high-resolution refillable stamp.

Speed: The two speed levels allow LS150 to fit both teller and remote deposit capture @ 75dpm and back counter or commercial teller @ 150dpm usage.

Smallest footprint: With the smallest footprint in its category, the LS150 fits any desks or locations, still offering a fully functional and friendly design. The documents insertion by single hand operations and the wide output pocket, both with adjustable supports, make the unit easy to use at a first glance, while the additional card scanning and mag. stripe reading allow solutions for quick user and customer identification and log.

Serviceability: The easy and comfortable access to all machine parts and consumables is gained without pulling out components or using tools, with clean hinges and magnet locks: forget about loose plastics and rubber fixings! The low maintenance and easy handling complete the hard to beat cost effectiveness profile of the LS150.

Flexibility: Maximum flexibility by keeping a complete freedom of optional features combination for feeding, endorsing and franking while providing an onboard USB hub that helps reducing long cables on busy workstations.

About CTS Group

CTS Group – www.ctsgroup.it – is a private industrial group consisting of four companies: **CTS Electronics**; **CTS Cashpro**; **CTS Manufacturing** and **CTS North America**.
