CubelQ announces integration of CTS Electronics Embossers to Card Instant Issuance Application – CiiA™

Athens, GR, **April 11, 2011** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial and corporate institutions, today announces the integration of **CTS Electronics™** embossers to **Card Instant Issuance Application - CiiA™**, a leading software application specially designed for managing the issuance of plastic cards at remote sites such as a bank branch and merchant outlets (local – instant issuance).

Card Instant Issuance Application - CiiA™ suite is designed to operate in banks and financial institutions that are issuing or are planning to issue ATM, Cash, Debit or Credit plastic cards at their branches. As a marketing concept, CiiA™ provides significant value to banks enabling them to differentiate from competitors, upgrade the "image" of the institution, increase customer acceptance, offer better quality of service, minimize operating cost and have faster time - to - market for new products. It enables banks to deliver their cards and train their customers at the branch thus increasing customer acceptance of card usage and card products.

New card personalization machines that CiiA™ supports under the new layered architecture are from **CTS Electronics™ CPS110, CPS120, CPS1800 and CPS2000**. CTS Electronics card personalization machines mark a new age in distributed card printing solutions. With all in a powerful, compact, intelligent and highly secure desktop unit designed for top print quality and capabilities such as electronic and mechanical locking plus triple DES cryptography, easily and quickly print high quality, edge-to-edge, brightly colored financial cards. CTS Electronics' state of the art technology allows easy and quick instant issuance of cards in 30 seconds.

A perfect combination of performance features and security makes CTS Electronics card personalization machines **the high end solution of choice** for banking and retail decentralized financial card embossing, indenting and thermal retransfer printing.

CiiA™ supports also card personalization machines from **CIM™ (Sunlight K3 thermal printer and Maxima 861 and 821 embossers)** and **FARGO™ (HDpii and HDP5000 thermal retransfer and DTC1000, DTC4000 and Persona® C30e thermal transfer printers)**.

About CTS Group
