CubelQ Announces that has Completed two new Information Security Projects in South East Europe

[EN] Athens, GR, **March 8th, 2012** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces that has completed two new Information Security Projects in South East Europe.

During the last quarter of 2011 and first quarter of 2012, CubelQ has completed two new information security Projects in South East Europe.

Both projects cover Bulgarian National Processor “Borica” security requirements about transaction message authentication on all on-line transaction exchanges with Borica from the local banks. In both projects Hardware Security Modules – HSM were used with specific configuration for covering Borica security specifications.

Each project was delivered for UAT in less than a month including installation, integration, configuration and training of the customers’ employees.
