

News Release

CubelQ announces the availability of PINSelect™, an in-branch PIN Change Solution

[EN] Athens, GR, **March 21st, 2013** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces the availability of PINSelect™, an in-branch PIN change solution.

PINSelect™ is a complete PIN change solution which comprises of programmable, EMV compliant, PIN-Pads, their software application and server software, titled PINSelect/Server™, that interfaces to various bank's legacy, card management and authorization systems.

PINSelect™ can operate as part of an in-branch card instant issuance solution and is offered as an optional module of CubelQ's Card Instant Issuance Application – CiiA™ or as a separate stand-alone system for in-branch PIN change. PINSelect™ operates autonomously in the branch and does not require a PC to change or activate magnetic stripe or EMV card PIN.

PINSelect™ is a complete, cost effective and high secure solution that seamlessly integrates into the bank's operating environment. It is a user friendly, fast and convenient self-service in-branch PIN change solution that dramatically improves customer service within the branch. Moreover, the issuers do not bear the cost and risk associated with mailing PINs to their customers.
