CubelQ announces the completion of a new Card Instant Issuance project to a Multi-National Bank

[EN] Athens, GR, **February 7th, 2014** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces the completion of a new Card Instant Issuance project in a Multi-National Bank.

The customer is a Multi-National Bank with headquarters in Athens Greece and presence in Albania, Bulgaria, Romania, Serbia, Ukraine, Cyprus, Egypt, United Kingdom and Germany. The Bank has a network of more than 1300 branches in Greece and more than 450 branches in Southeastern Europe and Eastern Mediterranean banking subsidiaries.

CubelQ's Card Instant Issuance System – CIIS™ was selected by the Bank as the solution that could realize a centralized architecture in which a server application is polling directly and in real time card printers installed in bank's branches.

CubelQ's Card Instant Issuance System designed particularly for the Bank comprise **from HID-Fargo** card printers and CubelQ's **Card Instant Issuance Application -CIIA™** in a special version developed to accommodate Bank's technical and operational requirements. A centralized architecture was designed with **Card Instant Issuance Application™** installed in central servers polling directly in real time the card printers installed in **300 branches**. Part of the centralized architecture is **CIIA/Monitor™**; a server application developed to monitor and report in real time the functional status of card printers.

CubelQ's Card Instant Issuance System is part of the Bank's marketing strategy to differentiate from other retail banks in its offering at the branch level. The ability to deliver a new payment card immediately when opening a bank account strengthen customer relationships, increases card usage and minimize operating cost.
