CubelQ Announces TSS's A98 ATM Key Management System Support for GRG International ATMs

[EN] Athens, GR, **December 17th, 2015** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces **TSS's A98 ATM Key Management System support for GRG International ATMs**.

Working together with GRG International's US headquarters in Mississippi USA, Trusted Security Solutions, Inc. has successfully completed remote key loading testing and certification with GRG ATMs using their A98 ATM Key Management System.

TSS's A98 ATM Key Management System support for GRG International ATMs opens the way for GRG ATM owners to use **A98-R Remote Key Loading – RKL** to establish the initial and subsequent encrypting key into their ATMs versus having two people visit each ATM and manually enter the key using paper components.

GRG International (GRGI) - www.grgatm.com is the representative of GRG products for **GRG Banking Equipment Company** - www.grgbanking.cn in several regions including Australia, and North America. GRG Banking with headquarters in Guangzhou, China is the No. 1 ATM supplier in China and a top 6 player in the global market.

A98 ATM Key Management System is the only commercially available Remote Key Management Solution that supports simultaneously, in the same system, the native Remote Key Management message protocols of the most popular ATM manufacturers such as NCR, Diebold, Wincor-Nixdorf, Nautilus Hyosung, GRG International and others.
