

News Release

CubelQ Announces TSS's A98 ATM Key Management System Support for Hyosung's EPP8000

[EN] Athens, GR, **December 17th, 2015** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces TSS's **A98 ATM Key Management System** support for Hyosung's EPP8000.

Hyosung customers when using these new EPPs from Hyosung that support remote key loading need to know that changes at the host level are required. The EPP8000 also uses a different Certificate Authority than the previous EPPs. The A98 development team has implemented these changes so that both the older and new EPPs are accommodated maintaining a smooth transition strategy for A98 customers when deploying the EPP8000 into their fleet of ATMs.

Nautilus Hyosung - www.nautilus.hyosung.com with headquarters in Seoul, Korea and business location in several regions including China, USA, India and Russia is a global leader in providing ATMs to financial institutions and independent service organizations.

A98 ATM Key Management System is the only commercially available Remote Key Management Solution that supports simultaneously, in the same system, the native Remote Key Management message protocols of the most popular ATM manufacturers such as NCR, Diebold, Wincor-Nixdorf, Nautilus Hyosung, GRG International and others.

About Trusted Security Solutions

Trusted Security Solutions, Inc. (TSS), a leading provider of secure ATM key management solutions, is serving institutions that manage cryptographic keys for ATMs with its A98-A ATM Initial Key Establishment System and A98-R ATM Remote Key Loading System ensuring compliance with ANSI and ISO standards.
