

News Release

CubelQ Announces FIS' CyberForce™ a Risk Mitigation Data Analytics Software Platform

[EN] Athens, GR, **February 13th, 2017** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces FIS' CyberForce™, a Risk Mitigation Data Analytics Software Platform.

CyberForce™ is a proven data analytics software and service that detects the most critical cyber vulnerabilities across disparate business systems and applications, linking seemingly unrelated activities to quickly reveal anomalous behavior and potential impacts on the business, customers and accounts.

CyberForce™ is an innovative and intelligent behavioral analytics software and service that analyzes millions of data records in near real time to precisely detect the most critical vulnerabilities and trigger alerts for immediate case management, forensics and risk mitigation action.

CyberForce™ benefits:

- Detects cyber risk precisely
- Focuses on most critical risks
- Mitigates risk quickly
- Detects anomalous behavior of privileged user
- Discovers hidden and not obvious relationships
- Meets FFIEC regulatory requirements
- Prevents financial loss
- Protects brand and reputation
- Captures detailed forensic evidence for law enforcement
- Case management tool for alert and threats assignments
- Dashboard reporting with metrics, trends and key risk indicators
