

News Release

CubelQ Introduces an EFT/POS Services Unit

[EN] Athens, GR, **March 1st, 2021** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions announces a new services business unit for EFT/POS terminals.

CubelQ together with our partner Sonoma we have established a new business unit for addressing the market of EFT/POS services. The new business unit will provide EFT/POS software application development and consulting services on EFT/POS related technologies.

Our software application development services are offered on different terminal operating systems such as Linux, Adroit and Manufacturers' Proprietary platforms. Our services cover a variety of EFT/POS manufacturers and models among which are **VeriFone, Spire, Newland, Castles, Wiseasy, Sunmi, Sanyard, Ingenico** and others.

Our EFT/POS experts having extensive experience in EFT/POS software development deliver robust, secure and scalable applications utilizing different financial standards such as ISO 8583, ANSI X9.9, ANSI X9.19, ANSI X9.24, ANSI X9.28, EMV 2000/2004, PCI, SPDH, UPI, including different security techniques like DES, 3DES, DUKPT, TLS/SSL, RSA, TR-31, TR-34 and implementing the strictest technical and operational requirements from international payment networks of **Visa, MasterCard, Amex, CUP** and **JCB**.

Our consulting services are dedicated to find the best EFT/POS solution, analyzing and validating commercial and operational requirements for businesses of any size and scale. Our design and development process are highly flexible, adapt, respond and evolve as per each business unique needs.
